QUESTIONS FOR CONSIDERATION.

Why is it that the Liberal or Progressive party throughout Europe are almost to a man the friends of the Union cause, and that their friendship has grown in proportion as the anti-slavery policy of the Administration has become more decided and emphatic?

Why is it that Garibaldi, Victor Hugo, Kossuth, Mazzini, and all who struggle for the rights of the people against their oppressors—the Radicals of England, the Liberals of Switzerland, the Republicans of France—are all on the side of a Union of Equal Freedom; while every Tory and tyrant of Europe, and all its aristocratic classes are in full sympathy with the slaveholders' Rebellion, and with the pro-slavery Copperheads at the North?

"What is it," asks the New York Tribune, "that impels the Liberals of Europe, without a single notable dissent, to desire the triumph of the Union on the basis of Emancipation? What is it that makes them all regard the overthrow of American Slavery as the only fit and compensating result of our great and desolating struggle? Will you try to tell?"

Come, gentlemen, this is not an American War only—it is a war for mankind, and all the interests and hopes of mankind are involved in the issue of the struggle. How is it, why is it that all in the Old World who stand upon the democratic principle and the freedom of the people accept Abraham Lincoln as its true exponent and interpreter in America—while all who stand upon the traditions of aristocratic caste—the subject of popular rights to the will and rule of a favored few, are for the Rebellion at the South and the Copperheads at the North? Will the Pioneer answer these questions?

THE INDIAN RAID.
From the express messenger who arrived from Mankato last night, we learn that the excitement there still continues. A large party of Indians had been reported on Lake St. Peter, and there were rumors of some having been seen near Mankato.

The militia at Mankato had gone out in pursuit of them, and pickets guarded the town on Wednesday night.

At the Fourth Senatorial District Legislative Union Convention, held at Anoka on Wednesday, the following nominations were made:
For Senator—J. S. Pillsbury, of St. Anthony.
For Representatives—M. M. Stowell, of Anoka, and S. Hewson, of Cambridge. These are all and severally among the best men in the district. If the other Senatorial Districts will make nominations as good as these, they will not only ensure us a Legislature of able and honest men, but will materially strengthen the whole Union ticket.

COL. J. H. BAKER, commanding District of St. Louis, Mo., proposes to procure and forward such sanitary supplies as may be needed by Minnesota military organizations in the South-West, and requests that the proper officers forward their applications to him.

The following prescription is vouchered for by the Eastport (Me.) Sentinel as a cure for the small-pox: "Give to the patient two table-spoonfuls of a mixture of hop yeast and water sweetened with molasses so as to be palatable, equal parts of each three times a day. Children under twelve years of age should take two table-spoonfuls three times a day. Diet—boiled rice and milk, and toasted bread moistened with water and without butter. Eat no meat. Give catnip tea as often as the patient is thirsty. When convalescent give sparingly broiled chicken, lean, without butter, only the few that are swallowed. Give physic when necessary. If the above treatment is strictly followed no marks of small-pox will remain.

A correspondent (G. W. B.) in the New York Evening Post says: "In conversation with a naval officer who has made his mark while in command of a monitor, I asked, 'Why do you not take Charleston?' 'That we can do; but what is the use of so doing unless we have troops to hold it after it is taken? Some of our monitors may be blown up by torpedoes in going there, but that is a risk we are willing to take when we have military cooperation. You know that monitors cannot take troops, as there is no room for them?'

MAJOR GENERAL DANA arrived at Cairo on the 14th from Helena, on the river Steamer, from an inspection of the Western troops. Gen. Dana is taking efficient steps to prevent trade on the river, which has been very flourishing the last few months. Immense quantities of quinine and morphine have been smuggled through the river lines in false-bottomed trunks, boxes of clothing and shoes, &c. Rebel prices in greenbacks are \$1,000 per ounce.

Our forces on the north side of the James River have had continuous and severe skirmishing every day this week. We have captured more prisoners than has been reported. No general officer is yet reported killed or wounded.

NEW YORK, Aug. 17. The Commercial's special contains the following paragraphs: Washington, Aug. 17th.—The flank movement on the north of Richmond was progressing finely yesterday morning. The enemy fell back on Monday night to a better position. Our troops were moving confident of success.

Relative to movement at Deep Bottom, the Times' special says: Tuesday opened with brilliant prospects of success. The cavalry of Gen. Gregg rested on the Charles City road to protect the right wing of our forces, whose left wing extended to the James River. The front of our line is only about six miles from Richmond. Lee, being thus held, cannot prevent the cutting of the canal across Dutch Gap; and if he should attempt to mass his forces on either side of the river, exposed positions on the opposite side will fall into great danger.

Our losses on Sunday are estimated at about 400 killed, wounded and missing; those of the enemy less. On Monday the loss of the enemy was greater than ours, owing to a more favorable position on our side. The firing on Monday was mostly with musketry after we had got on the enemy's flank and turned him, but yesterday morning artillery on both sides was playing rather briskly.

The following prescription is vouchered for by the Eastport (Me.) Sentinel as a cure for the small-pox: "Give to the patient two table-spoonfuls of a mixture of hop yeast and water sweetened with molasses so as to be palatable, equal parts of each three times a day. Children under twelve years of age should take two table-spoonfuls three times a day. Diet—boiled rice and milk, and toasted bread moistened with water and without butter. Eat no meat. If the above treatment is strictly followed no marks of small-pox will remain.

Passengers represent that the attack of Sunday was of greater proportions than at first supposed. The combined losses of the 2nd and 10th corps, killed and wounded, being from 800 to 1000, while the loss of the rebels was also severe. The position gained by us was still held on Tuesday night. On Tuesday there was some shelling by our forces to feel the rebel position. There were indications of another advance on our part yesterday.

SHERIDAN.
WASHINGTON, Aug. 17. Late advices state that Gen. Sheridan had fallen back to Winchester, where he will fortify, and act on the defensive. If this really be the case it would seem to indicate that Early has been so heavily reinforced as to make him too strong for Sheridan to attack.

[Tribune's special.]—We have just arrived from the Shenandoah Valley, having left the front early Tuesday morning. We were captured by guerrillas, but made our escape by running a gauntlet during the fight afterwards with a squad of Union cavalry, of whom three were killed, including Dr. Curtis of the 1st U. S. cavalry. Of the rest three escaped, and the remainder were either captured, killed or wounded—there were ten in all. Sheridan's dispatches were in the party.

Considerable skirmishing had taken place for two days previous to falling back, and both armies had their advance several times in succession in Strasburg.

One of these charges is worthy of mention, but having lost my note-book I cannot well describe it. Our cavalry had been scouting on the left, toward the mouth of Luray valley and the forks of the Shenandoah. In the rear of Front Royal, and right towards Snyder's Gap, the enemy had taken up a very strong position beyond Strasburg, at Fisher Mountain. On Monday a detachment guarding one of our signal stations on a mountain near Strasburg, was captured by the enemy. 500 men were sent up afterwards, and had not been heard from at last accounts.

The belief was that Early had been reinforced by Longstreet, and that he was moving northwest of North Mountain to flank us at Winchester. Whether this be true or not the friends of the rebels were informed at Middletown, where they retreated, that Longstreet would be at Woodstock on Sunday. The enemy promised to return again on Tuesday.

Our rear has been infested with guerrillas, supposed to be the same as those who captured the train a few days ago. The Herald has the following special: MARTINSBURG, Va., Aug. 17.—There is much activity here to-night in consequence of the reported advance of rebels. Skedaddlers have already commenced northern movements, and come down the valley bringing various reports.

We have information of an engagement at Front Royal. It is said the enemy has been reinforced by one division of Longstreet's corps and 2d cavalry divisions. Prisoners are reported to have stated that the whole rebel army is moving.

There is much excitement in the valley. It is not supposed here that Early intends leaving the valley permanently unless defeated, driven out and kept out. Sending to him fresh troops is convincing proof to this effect.

The rebels seem to base their very existence in Virginia upon keeping up a force to threaten the Potomac line, and keep a large body of troops in that region.

Laws of the United States.

Passed at the First Session of the Thirty-

eighth Congress.

[PUBLIC-NO. 181.]

An act to authorize the United States to acquire

land in Wallabouty, belonging

to the city of Brooklyn, and to authorize the

exchange of other lands therefor.

Be it enacted by the Senate and House of

Representatives of the United States of

America in Congress assembled, That the

Secretary of the Navy be and he is hereby

authorized and empowered to negotiate

with the city of Brooklyn, in the

State of New York, to effect an exchange

of lands in Wallabouty between

the United States and the said

city, and thereupon to make, execute,

and deliver good and sufficient deeds and

releases therefor.

Approved, July 2, 1864.

[PUBLIC-NO. 182.]

An act to amend the act of Oregon, to

aid in the construction of a military road

from Eugene City to the eastern boundary

of said State.
